SUMMARY

Full-Stack Developer with hands-on experience in building scalable web applications using the **MERN Stack** and **Python Django**. Skilled in developing responsive user interfaces with **React.js**, **Tailwind CSS**, creating secure REST APIs, and managing databases like **MongoDB**, **MySQL**, and **PostgreSQL**. Experienced in backend architecture, Django admin customization, performance optimization, and deploying modern web applications.

EXPERIENCE

QTN GLOBAL SERVICES PVT. LTD.

Full-Stack Developer

February 2025 – Present

Alwar, Rajasthan

- Developing and maintaining **full-stack web applications** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Building **responsive user interfaces** and reusable components to improve user experience across devices.
- Designing and integrating **REST APIs**, handling backend logic, authentication, and database operations.
- Collaborating with the team on feature development, bug fixing, testing, and deployment of projects.

Success Ladder Technologies Pvt. Ltd.

SDE Intern - Web Developer

September 2024 – January 2025

Alwar, Rajasthan

- Developed **web applications** using the **MERN stack** with focus on performance and scalability.
- Built **responsive UI components** using **React.js** & **Tailwind CSS**.
- Created and integrated **REST APIs** using **Node.js** & **Express.js**.
- Handled **debugging**, **code optimization**, and **maintenance** of existing projects.

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, Python

Frameworks / Libraries: React.js, Node.js, Express.js, Tailwind CSS, HTML5, CSS3

Databases: MongoDB, MySQL

Tools and Platforms: Git, Postman, GitHub, Vercel, Render, MilesWeb

PROJECTS

Faculty Management System — *React.js, Node.js, Express.js, MongoDB, Firebase Auth*

2026

- Developed a **Faculty Management System** to manage faculty activities, lectures, and daily academic reports efficiently.
- Built modules to track **faculty daily reports**, attendance, and lecture-wise work updates.
- Enabled monitoring of **student progress**, including topics covered and pending syllabus status.

- Designed a **responsive dashboard** with secure authentication and real-time data management.

Digital E-Cart — *React, Redux Toolkit, Tailwind CSS, React Router*

2026

- Built a **modern e-commerce application** with product listing, cart management, and checkout flow.
- Implemented **Redux Toolkit** for state management including cart persistence and quantity control.
- Integrated **search, filter, and sorting features** for better product discovery.
- Designed a **responsive UI** using Tailwind CSS with smooth user experience across devices.

Medical College Website — *React.js, Python, Django, SQLite, Tailwind CSS*

2025

- Developed a dynamic frontend using **React.js**, building reusable UI components for managing admission structures, academic notices, and complex course guides.
- Integrated the decoupled React single-page application with a robust **Django** backend, ensuring seamless data flow through optimized asynchronous API calls.
- Utilized the built-in **Django Admin Panel** backed by **SQLite** database models to enable local relational data entries and automated instant content updates on the client side.
- Optimized React frontend components for core web vitals, improving **SEO rankings, image rendering, and fast loading times** to scale online visibility.

Dental Clinic Website — *React.js, Python, Django, Django REST Framework, SQLite*

2025

- Built a seamless healthcare application using **React.js** for dynamic patient service listings and an interactive, real-time appointment scheduling interface.
- Engineered clean client-side state management to handle multi-step booking forms, validation, and real-time availability updates without page reloads.
- Connected the frontend to backend RESTful endpoints engineered with **Django REST Framework**, handling secure data serialization and data bridging.
- Leveraged Django security features including **CSRF tokens** in React Axios/Fetch configurations to ensure reliable, encrypted patient data operations.

EDUCATION

Modern Institute of Technology and Research Centre (MITRC)

B.Tech in Computer Science and Engineering (CGPA: 8.67)

Alwar, Rajasthan

2021 – 2025
